

<Various> Interest Group Summary Slide

- **Focus issues:** certification, linking data and publications, education and workforce, cataloging existing efforts, legal interoperability, preservation, communications, policy, outreach, sustainability (institutional and economic), library role, authentication/access, interop of marine data, interop of medical data
- **Approaches:** <What should the community be doing to address these issues? What are potential long-term efforts, short-term efforts, vehicles for activity, etc?>
- **Alignment with RDA?:** <Are there potential Working Group charters that might be developed from these issues? If so, what?>

<Various> Interest Group Summary Slide

- **Focus issue: Criteria for Forming RDA Working Group**
- **Approaches:**
 - **What type of BOF structure is needed for RDA prior to forming WG**
 - **Before Form Working Group:**
 - **Gap Analysis/Due Diligence as BOF?**
 - **Where does topic fit as an RDA Accelerant? Convincing Argument to wider community?**
- **Alignment with RDA?:**

<Various> Interest Group Summary Slide

- **Focus issue: Certification of Repositories**
- **Approaches:**
 - How do we implement and fund assessment practices worldwide?
 - How do we raise awareness that repositories should be certified?
 - **Existing Best Practices:**
 - DataSeal of Approval – DIN – ISO – RLG TRAC
- **Alignment with RDA?:**
 - Standards for Certification are the important component for RDA
 - What certification criteria effects capability to share data? Is this RDA low hanging fruit?
 - Lack of trust is an impediment to the sharing of data

<Various> Interest Group Summary Slide

- **Focus issue: Linking of Data and Publications (Data Citation)**
- **Approaches:**
 - **Existing Best Practices:**
 - **Social Science Data Archives and Proper Data Citation with DOI – Sloan Foundation Meeting with Editors on Data Citation – Thomson/Reuters Data Citation Index (impact for data) - DataCite – IATF – Co-Data (existing group) -**
 - **Stakeholders: Professional Associations – Publishers – Editors -**
- **Alignment with RDA?:**
 - **Catalog Existing Efforts for best practices**
 - **How do PIDs for data – authors – organizations fit together within a linked data eco-system**
 - **Recognizing non-standard citations in the academic realm for purposes of tenure etc**

<Various> Interest Group Summary Slide

- **Focus issue: Education/Workforce Issues**
- **Approaches**
 - **Role of libraries - data centers - others**
 - **Changing academic incentives for data work**
 - **Curricula: Fox – Borgman – CLIR Inventory – BRDI survey - others**
- **Alignment with RDA?**
 - **Define research data competencies for:**
 - **Domain scientists – discipline scientists – technicians – data wranglers**
 - **Where are the consistencies?**

<Various> Interest Group Summary Slide

- **Focus issue: Legal Interoperability including IPR & confidentiality**
- **Approaches**
 - Mechanism for integrating data that is compatible with legal policy
 - Better understanding of public law and licensing for use/re-use
- **Alignment with RDA?**
 - Comment on ScienceCommons Model to improve or enhance?
 - How to best use license framework to enable more advanced data interoperability
